OUR SERVICE

Residential Planning

Spazio Architects specializes in thoughtful residential planning that prioritizes functionality and aesthetics. Each design is customized to fit the client's lifestyle, ensuring a perfect blend of comfort and style.

Commercial Planning

Our commercial planning services focus on creating innovative spaces that enhance productivity. We collaborate with clients to develop tailored solutions that support business goals while maximizing usability.

OUR SERVICE

3D Renders & Walkthroughs

Utilizing state-of-the-art technology, we provide stunning 3D renders and virtual walkthroughs that allow clients to visualize projects before construction. This ensures alignment with client expectations and reduces revisions.

BIM & Revit Services

3D Revit Modeling (LOD 100–500)
BIM Coordination & Clash Detection
Quantity Takeoffs & Scheduling
Revit Family Creation
As-Built BIM Models

Landscape Architecture

We curate cohesive landscape designs that complement architectural projects and enhance natural environments. Our approach incorporates sustainable practices to create serene and functional outdoor spaces.

Vastu Compliance

Spazio Architects integrates Vastu principles in our designs, ensuring harmony between the built environment and nature. Our commitment to Vastu compliance promotes well-being and positive energy flow within spaces.

Residential Projects Showcase

Spazio Architects has successfully completed numerous residential projects, characterized by modern aesthetics and functionality. Our designs prioritize sustainable practices, ensuring energy efficiency while enhancing the living experience.

Commercial Projects Showcase

Our commercial projects range from office spaces to retail environments, each designed to attract clients and enhance employee productivity. We incorporate innovative layouts and sustainable materials to support business growth.

Client Testimonials

Feedback from our clients highlights the transformative impact of our designs on their lives and businesses. We pride ourselves on building strong relationships that extend beyond the completion of projects.

Innovative Designs and Concepts

At Spazio Architects, creativity meets functionality. Our innovative design concepts focus on integrating modern technology with traditional elements, creating distinctive environments that cater to diverse needs.

SHOWCASING OUR EXPERTISE: PROJECT PORTFOLIO

- **Rehman Security** – On-site security & surveillance services
- **Sana Builders & Contractors** – Turnkey construction & civil works
- **Mad Lights** – Lighting fixtures & electrical fittings
- **MS Fabricators** – MS/SS railings, grills, and structural fabrication

SOFTWARE & TOOLS WE USE

To ensure precision, efficiency, and innovation in every stage of our projects, we rely on industry-leading software and tools across design, documentation, and execution.

Architectural Design & Drafting

- **AutoCAD** – 2D drafting & construction documentation
- **Revit (BIM)** – 3D modeling, coordination & clash detection
- **SketchUp** – Conceptual modeling & fast visualizations
- **Lumion / Twinmotion** – High-quality 3D renders & walkthroughs
- **Photoshop** – Presentation boards & post-production edits

Structural Design

- **STAAD Pro** – Structural analysis & design
- **ETABS** – Building analysis & design for multi-storey structures
- **SAFE** – Foundation & slab design

Estimation & BOQ

- **MS Excel** – Quantity estimation, cost tracking & BOQ preparation
- **Bluebeam / PlanSwift** – Digital measurement & markup (if applicable)

Project Coordination & Documentation

- **MS Project** – Timeline planning & task tracking
- **Google Workspace** – Cloud-based document sharing & collaboration
- **Dropbox / Drive** – Drawing management & file sharing

LET'S WORK TOGETHER

Whether you're scaling up for a large project or need dependable daily drafting support, Spazio Architects is your go-to partner for smart, efficient, and collaborative solutions.
